RISK MANAGEMENT STRATEGY · V3

# DRAFT DAY PLAYBOOK

Alternating pick-by-pick · Men's 6 teams (11 rounds) + Women's 6 teams (12 rounds) · Outsourced livestream & F&B · Completely separate player pools

⚡ HIGH COMPLEXITY FORMAT | 👨 MEN'S · 6 TEAMS · 11 ROUNDS | 👩 WOMEN'S · 6 TEAMS · 12 ROUNDS | 📡 OUTSOURCED STREAM | 🍔 OUTSOURCED F&B

## ⚠ FORMAT COMPLEXITY WARNING

**This is an unusually demanding format.** Alternating pick-by-pick between two divisions, two separate pools, two draft boards, two sets of managers, and two snake sequences running in parallel — all live and on-camera — is a significant operational challenge. The risks below are shaped by this complexity. The single most important mitigation in this entire document is having a **dedicated Keeper for each division**. Without that, errors are near-certain.

**Pick total:** Men's draft = 6 teams × 11 rounds = **66 picks**. Women's draft = 6 teams × 12 rounds = **72 picks**. Combined alternating sequence = **138 picks**, with the women's final round (6 picks) running solo after the men finish. At 90 seconds per pick, the alternating phase alone runs approximately **3.5 hours** before the women's solo round. Plan accordingly.

## 01 HOW THE FORMAT WORKS

PICK SEQUENCE — ROUNDS 1–11 (ALTERNATING PHASE)

| 1 | 2 | 3 | 4 | 5 | 6 | ··· | ··· | 131 | 132 |
|---|---|---|---|---|---|---|---|---|---|
| M R1 | W R1 | M R1 | W R1 | M R1 | W R1 | ··· | ··· | M R11 | W R11 |

PICK SEQUENCE — ROUND 12 (WOMEN'S SOLO PHASE)

| 133 | 134 | 135 | 136 | 137 | 138 |
|---|---|---|---|---|---|
| W R12 | W R12 | W R12 | W R12 | W R12 | W R12 |

Men's division pick · Women's division pick · Women's solo round (after men finish)

⚠ Each pick alternates division — but within each division, the snake order continues independently. M R1 Pick 1 through Pick 6 are not consecutive; they are spaced by women's picks in between. Both Keepers must track their own snake sequence in parallel at all times.

### MEN'S BOARD

Tracks 66 picks across 11 rounds of a 6-team snake. The snake direction flips every 6 picks *within the men's sequence only* — not every 6 alternating picks overall. The Men's Keeper must track position in the snake independently of the women's picks happening in between.

### WOMEN'S BOARD

Tracks 72 picks across 12 rounds of a 6-team snake. Same independent tracking requirement as the men's board. After pick 132, the women's board continues alone for 6 more picks (Round 12). Women's Keeper must be prepared for this transition without prompting.

## 02 FORMAT-SPECIFIC RISKS

**These risks are unique to the alternating pick-by-pick format.** They do not exist in sequential or round-by-round drafts and represent the highest concentration of risk in this event.

| | | |
|---|---|---|
| 🐍 | Snake order lost in one or both divisions | CRITICAL |
| 😵 | Commissioner cognitive overload | HIGH |
| ⏳ | Draft runs significantly over time | HIGH |
| 🔚 | Men's finish / Women's solo round transition mishandled | HIGH |
| 🧠 | Manager picks from their own pool in the wrong round | MEDIUM |

## 03 REQUIRED ROLES — DAY OF DRAFT

**Minimum staffing for this format is 5 people who are not drafting.** Attempting this with fewer will result in errors on-camera. Each role below is a full-time job during the draft — no doubling up.

### COMMISSIONER

DRAFT CONTROL

- Calls every pick with division, round, and team name
- Resolves all disputes — immediately and finally
- Manages the pick clock
- Announces transitions, breaks, and draft end
- Does nothing else during the draft

### MEN'S KEEPER

BOARD TRACKING

- Tracks men's snake order on physical grid
- Marks each men's pick immediately when made
- Points to next men's pick slot before commissioner moves on
- Confirms round transitions verbally
- Does not track women's board under any circumstances

### WOMEN'S KEEPER

BOARD TRACKING

- Tracks women's snake order on physical grid
- Marks each women's pick immediately when made
- Points to next women's pick slot before commissioner moves on
- Manages the solo round 12 transition independently
- Does not track men's board under any circumstances

### DEPUTY COMMISSIONER

OPERATIONS

- Handles all vendor liaison during the draft
- Executes auto-pick lists for absent managers
- Manages crowd and Draft Zone boundary
- Tracks overall pick count, alerts commissioner at round transitions
- Backs up commissioner if they need a break

### VENDOR LIAISON

EXTERNAL

- Single point of contact for stream vendor
- Single point of contact for F&B vendor
- Monitors stream dashboard throughout
- Communicates any vendor issues to Deputy Commissioner only — never interrupts the commissioner
- Manages social media updates if stream drops

## 04 OUTSOURCED VENDOR RISKS

📡 Livestream failure mid-draft — HIGH ▼

🍔 F&B under-capacity for a 4–5 hour event — HIGH ▼

## 05 GENERAL DRAFT RISKS

🚫 Manager no-show — HIGH

⚔️ Pick dispute — MEDIUM

🎭 Crowd disruption / cross-division coaching — MEDIUM

🏷️ Player eligibility dispute — LOW

## 06 ROLES & ACCOUNTABILITY

| RISK / TASK | PRIMARY OWNER | ESCALATE TO | NOTES |
|---|---|---|---|
| Calling every pick with division + round + team | Commissioner | Deputy | Must happen before every single pick, no exceptions |
| Men's snake tracking | Men's Keeper | Commissioner | Physical grid only — never from memory |
| Women's snake tracking | Women's Keeper | Commissioner | Keeper manages solo round 12 transition independently |
| Auto-picks for absent managers | Deputy | Commissioner | Pre-printed list, executed in <15 seconds |
| Stream failure | Stream Vendor | Vendor Liaison | 10-min window before backup stream activated |
| F&B failure / stock issues | F&B Vendor | Vendor Liaison | Liaison communicates alternatives, keeps crowd away from Draft Zone |
| Dispute resolution | Commissioner | Deputy (log) | Immediate ruling, both clocks paused, both resumed together |
| Draft Zone / crowd management | Deputy | Commissioner | Commissioner never breaks focus to police spectators |
| Men's finish → Women's solo round transition | Commissioner | Women's Keeper | Announce on-stream; Women's Keeper confirms R12 snake direction |
| Scheduled breaks | Commissioner | Deputy | Every ~30 alternating picks; "BRB" scene on stream; board verification during break |

# 07 PRE-DRAFT CHECKLIST

READINESS 0%

## 📅 48 HOURS BEFORE

- [ ] Men's player pool finalised & distributed Men's
- [ ] Women's player pool finalised & distributed Women's
- [ ] Pre-printed men's snake grid (66 slots, all team names) Men's
- [ ] Pre-printed women's snake grid (72 slots, all team names) Women's
- [ ] Commissioner's pick cue card prepared (division, team, round, snake direction per pick)
- [ ] All 12 managers confirmed attending (or proxy named) Both
- [ ] All 12 managers' auto-pick lists received (15+ players each) Both
- [ ] Run-of-day schedule (inc. breaks, expected duration) sent to all vendors Vendor
- [ ] Stream vendor arrival & setup time confirmed in writing Vendor
- [ ] 5 non-drafting staff confirmed in roles (Commissioner, Deputy, 2× Keeper, Vendor Liaison)

## 🎬 DAY OF — SETUP

- [ ] Arrive 60+ min early — this format requires more setup time than standard
- [ ] Two draft boards set up on opposite sides of room, clearly colour-coded
- [ ] Vendor Liaison checks in with stream vendor and F&B vendor on arrival
- [ ] Stream tested live (not just connected) Vendor
- [ ] Backup hotspot and personal device stream ready (emergency only)
- [ ] Pick clock configured, colour-coded by division, tested on-stream
- [ ] Both Keepers walk through their respective grids and confirm understanding
- [ ] Draft Zone boundary physically marked — spectator area separate
- [ ] Break schedule posted visibly (for managers, stream, and vendors)

## ⚡ T-15 MIN — FINAL CHECKS

- [ ] All 12 managers checked in Both
- [ ] Stream confirmed live with vendor Vendor
- [ ] Commissioner reviews cue card for first 10 picks
- [ ] Both Keepers at their boards, grids confirmed correct
- [ ] Draft rules announced on-stream before first pick
- [ ] Expected duration and break schedule announced on-stream
- [ ] Auto-pick lists accessible to Deputy Commissioner

## 🏁 DURING DRAFT — KEY CHECKPOINTS

- [ ] Break 1 — both boards verified by Keepers (after ~pick 30)
- [ ] Break 2 — both boards verified, F&B stock checked (after ~pick 60)
- [ ] Break 3 (optional) — mid-event reset (after ~pick 100)
- [ ] Pick 132 — men's final pick confirmed, transition announced on-stream
- [ ] Women's Keeper confirms R12 snake direction before solo round begins

- [ ] Pick 138 — both drafts complete; full pick lists saved and exported

## 08 ON-THE-DAY QUICK REFERENCE

⏱️

### PICK CLOCK EXPIRES

Deputy executes auto-pick from pre-submitted list immediately — under 15 seconds. Commissioner announces the pick on-stream. Draft continues without pause.

🐍

### SNAKE ORDER LOST

Stop. Do not guess. Keeper reconstructs from physical grid. Commissioner holds the clock. Takes 60 seconds — worth it. Resume only when both Keepers confirm their position.

📡

### STREAM FAILS

Draft pauses, clock freezes. Vendor Liaison calls vendor. Social post within 2 minutes. 10-minute window for vendor to restore. After 10 min: backup stream activated, draft resumes.

🚫

### MANAGER MISSING

Deputy executes pre-submitted auto-pick list in under 15 seconds. Both divisions continue without pause. Manager joins when they arrive — no reversal of auto-picks.

🔚

### MEN'S DRAFT ENDS

After pick 132: announce on-stream, men become spectators, enforce Draft Zone. Women's Keeper confirms R12 direction. Women's solo round begins — treat it as a fresh segment.

😵

### COMMISSIONER OVERLOADED

Call a break. Deputy takes over. Take 5 minutes. This format is gruelling — planned breaks prevent unplanned ones. There is no shame in a scheduled pause on a 4-hour draft.
